Subject: Courthouse Project

An Open Letter from Judge Mary Kovack:

I read in the Medina Post today about the plans for tearing down the courthouse and creating a new complex on the square, including the municipal court and the entire county administration, on a footprint that barely meets current needs. No price tag for this project is offered.

According to the article, no judges are on this facilities taskforce.

I hope the taxpayers of Medina County look at this closely. While the courthouse is out of space and has needs to be addressed, the conversation should involve those who use the courthouse and all of us who pay the bills.

Respectfully,

Judge Mary Kovack
